

I. Project Updates (10 min)

- a. Cameras have been remounted and are successfully streaming over the network
- b. We were able to successfully connect to the system and move the spherical on 9/5
  - i. Is heat the issue with the spherical controller connectivity?
- c. Daryl picked up an AC adapter to supplement the power to the Arduino
  - i. Has this seemed to improve the connection?
- d. Are we reading over the code?
- e. Project Schedule
  - i. Does everybody have enough to do? Everyone clear on their tasks?
  - ii. Since the camera work is finished for now, I'd be happy to take the website on.
  - iii. What can we help each other with?

II. Any contact? (3 min)

- a. Brent, have you reached Scott?
- b. Prof. Notaros, has Steve Turner replied about being an adviser on the project?

III. Rob Update (2 min)

- a. He has received the schedule and has shared it as a Google Doc, so that we can stay on the same page.

IV. Anything else?(5 min)
